CAPITAL IN MOURNING FOR THEATER VICTIM

(Continued from Page 1.)

People in the national capital have been pointing to the plight of their civil affairs with even more insistence in the last two or three years than ever before. The people do not expect representation in congress. The theory back of this has always been that the interests of the government were so manifold that the federal government could not do it. The national capital, much of the wisdom of this is admitted but it is a fact that the federal government is so top-heavy with its own responsibilities that it could not afford to permit the population of this city at least a qualified voice in their own affairs.

Problem of Building.
The building problem is ever so much more serious than it was. Scores of buildings were erected during the war. The government itself has scores of temporary structures where thousands of employees work daily. It was the common boast of builders how fast they could put up some of these box buildings. And this city has grown since the war. The responsibility of city officials have multiplied, yet congress only last week passed the district appropriation bill and left the municipal government on a shoestring basis for the coming year. If a street has to be extended, congress must pass a law to that effect. If a policeman's pay must be increased, the congress must approve. If traffic is to be regulated, congress must approve the regulations or grant the authority for the making of them. A busy congress is supposed to manage the District of Columbia's detailed affairs and run the federal affairs of the nation besides. The District of Columbia has long suffered and has long complained. The Kautzbecker disaster may teach a lesson. The saving of other lives involved in efficient municipal government. God moves in strange ways his wonders to perform.

High Life In Paris

M. Gustave Eiffel, creator of the Wonder of the World that bears his name, has a private office in the extreme summit of the tower that looms dizzily above Paris. It is a cozy place, free from interruptions.

The person who cultivates an acquaintance with the best minds of the present and the past, as perpetuated in the world's literature, builds for himself a tower of satisfaction and inspiration where he can dwell in golden serenity at will. There are no building regulations for these towers of thought—the higher they rise, the more enduring they become.

He who spends a definite portion of his time in a tower finds an exhilaration that remains after he descends.

COLUMET

HAS RAISED A NEW STANDARD FOR BAKING POWDER

Because it's made in the most careful and scientific manner from absolutely pure materials that remain pure in the baking and insure wholesome, healthful food.

Because it possesses the greatest leavening power.

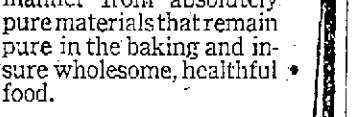

Because it is not affected by time or weather—it never loses its strength and never fails.

Because it is more economical—you save when you buy it and you save when you use it.

These are a few of the reasons why Calumet is the standard baking powder—the choice of millions—more being sold than of any other brand.

Try it—always buy it. Your grocer can supply you.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

NOTRE DAME QUERIED 70 SCHOOLS DEC. 16 TO FIGHT "PRO" EVIL

(By Associated Press.)
South Bend, Ind.—Notre Dame university officials Tuesday made public copies of a letter sent six weeks ago to 70 middle western colleges calling attention to the threat of professional sports to the school's athletics and asking cooperation in a concerted movement to clean it out.

The letter was mailed Dec. 16, six weeks before any public hint of the football scandal which has resulted in the resignation of Coach Knickerbocker and the suspension of eight Notre Dame men and followed announcement in Chicago Monday that the Western conference planned a wholesale investigation.

Nine replied.

While the letter was sent to 70 schools, only nine replied. It was announced, and two of those were Western Conference schools. These letters said that while Notre Dame "had almost conclusive evidence that professional sports was making serious inroads into our college sports," it was difficult to prove the charges in court, but that an investigation would separate the wheat from the chaff.

The letter explained that Notre Dame had its own record investigated reports that three of its men played professional baseball in Milwaukee and that the men—Garvey, Anderson and Larsen—confessed and were disqualified.

Those teams that have not received identification certificates which must be presented when applying for fare and a ball should get in touch with Dr. S. F. Rich, Bell 242 or 1912. Bowlers are urged to purchase their tickets Wednesday to avoid a rush at the ticket office Thursday morning.

WHAT IS A "PRO"?

What is a semi-professional? This is a question that is coming up in many minds now that the college scandal has broken loose. Spaulding's guide says:

"The word semi-professional is used to indicate teams which play one or two paid players, but in laws of amateur athletics no such word exists. A team is either amateur or professional and managers who mix their teams make each player a professional."

SHERIFF JUST LOST ANOTHER BOARDER

Dee Curry, Fifth Man to Say "Good Bye" to Cash Whipple.

One Dee Curry, Beloit colored gentleman, sent up to the Rock county jail for 90 days on conviction for selling an expired license in the jail basement doing odd jobs. There was the ashes to clean out, the coal to be shovelled and the basement to be swept up. Curry said it was better than knocking in the alley up in the cell rooms.

"When de moon shines on de moonshine," sang Dee Curry. He wailed out the dirty and improved manner with the jangling moans of the "cobwebs" on the machinery.

Curry had 87 days to go on his sentence. He had been sent to the county house by Sheriff Cash Whipple to do odd jobs the day previous. He was assigned to daily tasks which gave him part freedom of the jail and according to the sheriff, the Beloit negro was a "right good worker."

But somehow the dillies that Curry would hum and sing affected him with spring fever. He didn't do his work. One morning Sheriff Cash Whipple went down to the cellar to see how Curry was handling the ashes, he learned something. The ashes were not there—but not Dee Curry. It was gone!

He had "ashes" to ashes. If the jail don't get you, then the cops will. And so for the police haven't been able to locate Dee Curry. He is the fifth man to either escape from the jail or violate a commitment parole during the last year's time. "I don't think he'll be back but I won't bet him it means from one to three years in prison," stated Sheriff Whipple on Tuesday.

YOU TELL 'EM

Reporters ask a daily question of five persons. Here's what they say:

Today's Question: Should Janesville have a real tourist camp? (Asked among Janesville men.)

Alex A. Russell—"If the city could have a good camp with an attendant in charge, I would say that Janesville should have a tourist camp. A poor one is worse than none at all. You go through most up-to-date towns now and they have good tourist camps."

Fred Turner—"Janesville should have a good camp. Nearly every city or town now has one. It is the coming thing, for in the future the majority of people are going to travel by automobile with a camping outfit."

John M. Gellert—"I think it would be a pretty good thing. It would make business better for Janesville and help advertise it. We certainly should have a tourist camp equipped with water and light. I found that most cities in Wisconsin had them and they were a success. The city could find a suitable place close to the river, for in the future the majority of people are going to travel by automobile with a camping outfit."

JANUARY BIGGEST MONTH IN HISTORY FOR FIRE ALARMS

With a total of 46 fire alarms up to Tuesday noon, January bids fair to be the biggest month for fires in the history of Janesville. The 46th call came at 10:10 Monday night when firemen extinguished a chimney fire at the Blackhawk apartment building, 412 East Milwaukee street.

Within the memory of present members of the department, the number of fires in one month has never exceeded 46. In January, 1921, there were more alarms but, turned in on election night. Most of the fires this month were chimney and roof blazes. The biggest blaze was the William Robinson blazes were the Samuel Gagan tobacco barn.

COUNTRY SCHOOLS NEED IMPROVING

Assistant State Superintendent Tells Local Rotarians.

Improvement of rural schools and country teachers is the biggest and most important problem facing the state educational department, according to C. J. Anderson, assistant state superintendent, who spoke before the Rotary club luncheon at the Grand hotel Tuesday.

"The rural schools are the weakest part in the state system," he stated, declaring they are poorly equipped and faculty taught. He announced that 700 rural teachers were found not up to standard in 1921.

Commenting upon city schools, he congratulated Janesville on having P. G. E. as superintendent. Tuesday was American Legion day at Rotary club to cooperate with the legion in carrying out its program of Americanization, saying that the "melting pot" idea has failed to turn out good citizens of foreigners.

Robert Francis Sheehan, author and director of the American Legion theatre, was to be staged at the Myers theatre next Monday, Tuesday and Wednesday under the auspices of the local post, attended with his booster squad. In addition to songs, a musical of the cast, Mr. Sheehan portrayed the character of a "dope fiend." The entertainers were greeted with great applause.

T. T. Houshagen, superintendent of the state school for the blind, asked the Rotary club to act as advisers to two boys who graduated from his institution this year.

PAINS ACROSS SMALL OF BACK

Husband Helped in Housework.
Lydia E. Pinkham's Vegetable Compound Made Her Strong

Foster, Oregon. "I used Lydia E. Pinkham's Vegetable Compound for pains across the small of my back. They bothered me so badly that I could do my work only with the help of my husband. One day he saw the 'ad.' in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been irregular too, and now am all right. I am telling my friends what it has done for me and am sure it will do good for others. You can use this letter as a testimonial. I will stand up for Lydia E. Pinkham's Vegetable Compound any time."—Mrs. W. A. J. Foster, Oregon.

Doing the housework for a family of seven is some task. If you, as a housewife, are troubled with back-aches, irregularities, or are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

LIQUOR TO STAY IN WAREHOUSE

U. S. Supreme Court Decides Important Case Against Removal.

Washington—Owners of liquor stored in bonded warehouses even though the liquor is subject to leakage and evaporation, have no constitutional right to remove to distilleries for personal consumption what remained, the supreme court Monday announced in disposing of several cases.

In two of the cases warehouse receipts for the liquor were purchased after it had become legally impossible to remove the liquor for beverage purposes and in two others the owners of liquor neglected to remove it during the seven months allowed for that purpose. The decrees of the lower courts in the cases were affirmed.

Solicitor General Beck in the government briefs in these cases, referred to "the widespread and reckless violation of the prohibition statutes," and predicted that should the court permit removal of the liquor much of the larger quantity now in warehouses "would be diverted to bootleggers and other violators of the law."

The opinion of the court, delivered by Justice McKenna, held that the law permits "transportation to the bonded warehouses, but not removal from them." The only transportation from bonded warehouses which is permissible, the court said, "is to a wholesale druggist for sale to him for purposes not prohibited by the law."

Wayne B. Wheeler, general counsel for the anti-saloon league, declared the decision to be "the most important for law enforcement since the decision sustaining national prohibition."

If the court had construed the law to permit the withdrawal of these liquors for personal use, Mr. Wheeler said, "millions of gallons would have been taken out and a large part of it diverted to unlawful purchasers."

is Home-made.

Here's an easy way to cure it, and
you have the best cough remedy
you ever tried.

You've probably heard of this well-
known plan of making cough syrup
at home. But have you ever used
it? Thousands of families, the world
over, feel that they could hardly keep
house without it. It's simple and
cheap, but the way it takes hold of a
cough will soon earn it a permanent
place in your home.

Into a pint bottle, pour 2½ ounces
of Pinex; then add plain granulated
sugar syrup to fill up the pint. Or,
if desired, use clarified molasses
syrup, or corn syrup, instead of sugar
syrup. Either way, it tastes good,
never spoils, and gives you a full pint
of better cough remedy than you
could buy ready-made for three times
its cost.

It is really wonderful how quickly
this home-made remedy conquers a
cough—usually in 24 hours or less.
It seems to penetrate through every
air passage, loosens a dry, hoarse or
tight cough, lifts the phlegm, heals
the membranes, and gives almost im-
mediate relief. Splendid for throat
sore, hoarseness, croup, bronchitis
and bronchial asthma.

Pinex is a highly concentrated com-
pound of genuine Norway pine ex-
tract, and has been used for genera-
tions for throat and chest ailments.
To avoid disappointment ask your
druggist for 2½ ounces of Pinex
with directions, and don't accept any-
thing else. Guaranteed to give abso-
lute satisfaction or money refunded.

ORGANIZED LABOR HAS
CHECKED THE SOVIET

New York—Organized labor has
done more than any other agency to
check the doctrine of "Russian" revo-
lution. It is the opinion of the
I. W. O. and other labor groups, who
threatened the stability of the United
States government. Judge Alton B.
Parker, once democratic candidate for
the presidency, told the National Civic
Federation here Monday.

Judge Parker, as president of the
federation, opened its annual conven-
tion.

One of the over-increasing govern-
mental taxes, Judge Parker said,
is the question "will the people much
longer be able to bear the burden of
taxes which more and more press
upon them?"

Home of Monroe
Will Be Preserved

New York—The old brick house at
62 Prince street, where James Mon-
roe, fifth president of the United
States, died, is to be cleaned and pre-
served for its historical interest.

The American Scenic and Historic
Society announced Monday that ne-
gotiations for its purchase were near-
ing completion. The building now is a
storage warehouse.

In Monroe's time the building was
in a neighborhood of poor homes.
Its walls are now overshadowed by
garages and jobbing houses. Two
pickers used the porch as a ware-
house for trash. The doors sag from
their hinges, the plaster has fallen
from the walls, and in the front
where Monroe's carriage and pair of
ton were seen, wheel barrows come
and go with rags, bones and bottles.
